S.NO	SUGGESTIONS	ACTION TAKEN
1	Students can be provided opportunities to interact with industry experts.	To ensure that the syllabus remains relevant, the teachers and institute are organising a series of seminars and workshops. These events are designed to provide students with increased opportunities for interactive sessions with industry experts, enhancing their learning experience and bridging the gap between theoretical knowledge and practical application.
2	Practical learning sessions can be increased to enhance hands-on experience and real-world application of concepts.	It was observed that the students are increasingly focused on practical learning. To address this, the teachers have been advised to enhance their lectures with more live examples and case studies. This approach aims to link the subject matter with the current national and international events, making the content more relevant and engaging for the students.
3	Seminars can be organized to host talks by experts, providing students with valuable insights and knowledge directly from professionals in their field.	To make the syllabus more relevant, the teachers and institute have planned and are organising a range of seminars, webinars, conferences and workshops. These events aim to provide the students with more opportunities for interactive sessions with experts, enhancing their learning experience and connecting the academic content with the real-world applications.
4	The teaching and learning experience can be enriched by incorporating additional programmes, such as guest lectures, practical workshops, and collaborative projects.	To enhance the teaching and learning experience, the institute has decided to regularly arrange workshops, industrial visits, and conferences. These activities provide the students with practical insights and exposure to the real-world applications of their studies.
5	Students can be encouraged to participate in sports and cultural events to foster their overall development and provide opportunities for personal growth and teamwork.	To enhance the extracurricular activities and sports, the institute organizes an Annual Sports Fest along with various inter-college competitions. These events provide the students with opportunities to showcase their talents and engage in healthy competitions.
